

6th November 2009

Ms. Lau Kit Sim
The Principal
Cotton Spinners Association Secondary School.

Dear Ms Lau,

I would like to express to you and all the teachers and staffs in the school for putting in so much effort in the farewell to the Supervisor show, and the Remembrance Album with the letters from you, Ms. Tsui , Mr. Suen, Steven's English letter representing all teachers and the student representative's letter. I will never forget the show as long as I live and the album is one of my most treasured possessions.

It had been a wonderful 23 years, with a lot of up and downs. However, most of the memories are pleasant ones. Our school has many wonderful teachers, dedicating their lives to our students. I am sure with the new Spervisor Mr. Julian Wong's and your leadership; our school will keep on improving.

May I give my final advice: our aim is to make our school a happy school, a place where teachers and students enjoy going to. Of course, this does not mean everybody does not have to work seriously. Also, I am not saying it is not a happy school now. The way to have a happy school is all of us: the board members, you, and all the teachers need to continuously work on having good relationships with one another. The only way to have good relationship is: being open with one another, not being afraid to make mistakes, to be able to take criticism, and to be able to forgive.

Although I am not the Supervisor any more, I will still visit the school as a member of the IMC board. I look forward to many more happy years working with you and all the teachers and staff.

Sincerely,

Alex Woo
